

Housed Bearing Unit with Protective Covers

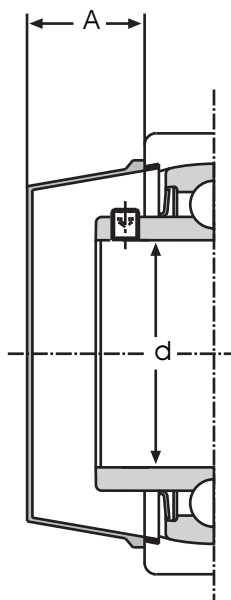

End Cover SM-DK

HFB series SM-DK Plastic End Cover are used to protect shaft ends.

When ordering housing units with end covers this should be mentioned in the order.

The housed bearing unit will then be delivered with a correspondingly machined groove on the side of the ball bearing fixing. The end cover will be delivered loose and after assembly can be pushed into the machined groove using a light pressure. Dimensions are obtainable from the following table.

End Cover Ref	Shaft Diameter mm	Extension x
SM - DK 204	20	21
SM - DK 205	25	21
SM - DK 206	30	23
SM - DK 207	35	25
SM - DK 208	40	26
SM - DK 209	45	27
SM - DK 210	50	34
SM - DK 212	60	40
